

Antenna Combiner

AC-32

Serial Port

Major function

- A joint antenna for numbers of transceivers to reduce the interference.
- Every set of AC-32 accepts 32 sets of transceivers at most. While the transceivers are more than 32 sets, AC-32 can be serial connected for expanding.

Specification

- Frequency range : 800MHZ-1900MHZ
- Isolating degree: : ≥ 18 db
- V.S.W.R : ≤ 3
- Size: Width:48cm(19"), depth:24cm, height: 4.45cm(1u)
